

Anupam Sud

Indian Contemporary Artist
Born 1944, Hoshiarpur, Punjab
Lives and Works in New Delhi

Known as the finest printmaker among new generation of artists in India, Anupam Sud's art epitomizes the interrelation and psychological tension between men and women. Her 'feminist' works are more metaphorical than direct, reflecting her humanistic sentiments. Although she works across all mediums, Sud's multi-media prints and etchings that involve the intaglio process still hold their sway over her paintings.
